

COAL PHASE-OUT IN THE EU COUNTRIES

Coal plants produce 1/4 of world's CO₂ emissions. The EU countries plan to **replace coal by cleaner sources of energy**. We compare their plans to their **electricity production from coal**.

Official phase-out discussion missing

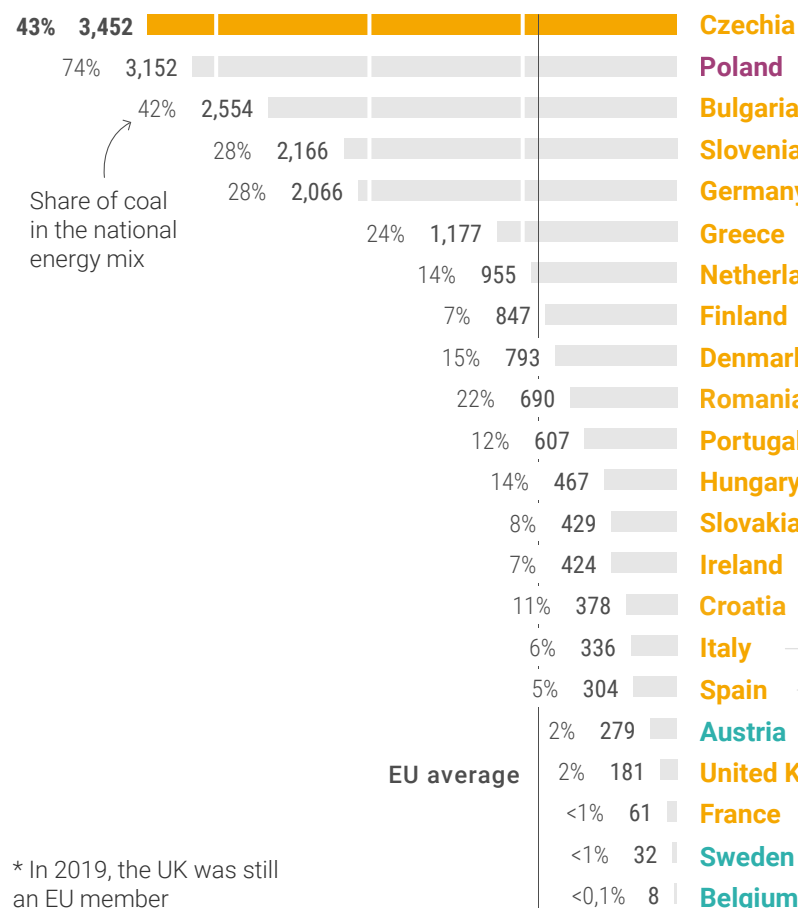

Date announced

Phase-out finished

Negligible coal capacity

PER CAPITA ELECTRICITY PRODUCTION FROM COAL IN 2019

3,000 2,000 1,000 kWh/cap.

* In 2019, the UK was still an EU member
