

EU FUNDING FOR CLIMATE ACTION IN CZECHIA

The Czech Republic will receive an **unprecedented amount of money** for climate action from the EU funds: approximately **450–800 billion CZK**.

SOURCE OF FUNDING	FUND	AIM	MONEY FOR CLIMATE ACTION	RECIPIENTS	FUNDING USED FOR
EU budget Based primarily on national contributions from Member States, VAT and levies Next Generation EU Loan of EU countries to support recovery of national economies after COVID-19 pandemic	EUROPEAN STRUCTURAL AND INVESTMENT FUNDS (ESIF) 2021–2027 is the drawing period	Balance income inequality between different EU regions	 25% = 139 billion CZK of the fund	Local governments, companies, organizations, associations, individuals	A wide range of things from low-carbon infrastructure to agriculture, education, etc.
	JUST TRANSITION FUND (JTF) 2021–2027	Support coal regions , minimize negative impacts of decarbonization	 100%* 43 billion CZK	Companies, local governments, universities in Moravian-Silesian, Ústí nad Labem and Karlovy Vary Regions	Investments to small & medium-sized companies, to new companies, reskilling, and clean energy resources
	NATIONAL RECOVERY PLAN (NRP) 2020–2026	Recover national economy after pandemic, support net-zero transition and digitization	 41.6% 76 billion CZK	Local governments, companies	Renewables, energy efficiency, transportation, clean air, circular economy, etc.
Emission allowances (EU ETS) Money paid by companies in energy-demanding industries	MODERNISATION FUND 2021–2030	Modernize countries for which net-zero transition will be the hardest	 100% 150–500 billion CZK**	Primarily major actors, then medium-sized and small companies, local governments	Renewables, energy efficiency, transportation, community energy systems, etc.
	INNOVATION FUND 2020–2030	Support major innovative projects	 100% <i>Depends on supported projects – unlike funds above, this one is distributed at all-EU level</i>	Major actors	Low-carbon technologies, renewables, energy storage, carbon capture, etc.
MORE FUNDING PROPOSED IN FIT FOR 55					
Emission allowances (EU ETS 2) Money paid for emissions from road transport and buildings	SOCIAL CLIMATE FUND 2025–2032	Support vulnerable groups , minimize negative impacts of decarbonization	 100%* 45 billion CZK	Small businesses, households, transport users	Energy efficiency, investments to renewables, low-carbon transport

* The fund is meant to minimize the negative impacts of decarbonization so some of the money may not be used for climate action.

** The exact amount depends on the future price of emission allowances (a higher price also means higher revenue). This range is for 30–100 € per allowance.
