## EU FUNDING FOR CLIMATE ACTION IN CZECHIA

The Czech Republic will receive an **unprecedented amount of money** for climate action from the EU funds: approximately **450–800 billion CZK**.

<sup>\*</sup> The fund is meant to minimize the negative impacts of decarbonization so some of the money may not be used for climate action.

\*\* The exact amount depends on the future price of emission allowances (a higher price also means higher revenue). This range is for 30−100 € per allowance.
